

Project Design Phase-I Solution Architecture

Date	19 September 2022
Team ID	PNT2022TMID01830
Project Name	Smart farmer -IOT enabled smart farming application

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Track down the best tech answer for tackle existing business issues.
- Depict the design, qualities, conduct, and different parts of the product to project partners.
- Characterize highlights, improvement stages, and arrangement necessities.
- Give particulars as indicated by which the arrangement is characterized, made due, and conveyed.

Example - Solution Architecture Diagram:
